Apropos to this reception, we may remark that we have a dim recollection of another reception that took place at that same mansion away back in May, 1865; at the time a company of good Gov. Peirpoint's Wheeling friends went over to Richmond to see him inaugurated under the protecting regis of Uncle Sam. The "ancien noblesse" among the Virginians did not turn out very strong on that memorable occasion to greet us all and the man of our choice. They were nearly all at that time like Jubal Early still is, re-

It will be remembered that the nerves of sensation have never been affected, and the pulse responded as rapidly in the paralyzed wrist as in the other. Since the paralysis of the pneumogastric nerve, a few weeks ago, the functions of the stomach have been suspended, and he has suffered from contant nausea. But by far the most distressing symptom, in all this sad chapter of maladies has been the sensation of intense heat, consequent upon impaired like Jubal Early still is, served, sulky and somewhat contemptuous.
